## PROJECTS

SkillYatra: an EdTech Platform

| ReactJS, NodeJS, ExpressJS, MongoDB, Tailwind, Redux

- Developed a full-stack EdTech platform allowing students to **learn, track progress, and interact with instructors** globally.
- Implemented a responsive front-end with **ReactJS, Tailwind, and Redux** and dynamic course content rendering from back-end APIs.
- Built secure RESTful APIs with **Node.js, Express, MongoDB**, including user authentication, course management, and payment integration with Razorpay.

JobMitra: Job Portal Platform

| ReactJS, NodeJS, ExpressJS, MongoDB, Tailwind , Redux

- Developed and maintained responsive web pages using **HTML5, CSS3, Bootstrap 5, and JavaScript**, ensuring cross-device compatibility.
- Implemented a responsive, user-friendly interface using **ReactJS** and **Tailwind CSS**, ensuring seamless navigation across devices.
- Integrated **MongoDB** and **Redux** for efficient data management, real-time updates, and scalable state handling for all platform features.

Frontend E-commerce Project

| ReactJS, Redux, Tailwind

- A modern and responsive shopping cart application built with React, allowing users to browse products, add items to the cart, adjust quantities, and see the total price dynamically.
- Utilized **Redux** for state management to handle shopping cart functionality, enabling users to add and remove items from the cart seamlessly.
